You don't find yourself bash'n down gully descents? You're probably not found in waist deep prickly bush approaches or occasionally even deeper between two walls of rough stone. Never been dragged across a ledge on the seat of your pants when your second peeled unexpectedly? Maybe you just want to look neat and enjoy comfort in the outdoors. We understand, we found out the hard way. **Makalu™ technical apparel: we make it tough, you make it look good... Happiness!**
